Allied Instruments Pvt Ltd is an international manufacturer of quality School and Office products under the brand name OMEGA. We have been serving customers in more than 35 countries, since our inception in 1962. We design, develop and manufacture over 500 innovative and superior products including office stationery, document and file organizers and trays, desk, pin and pen organizers, tape dispensers, cutters, engineering and drawing equipment, educational aids like math manipulatives and literacy tools from early childhood all the way to primary school. Our range has grown to now include pens, envelopes, canvas boards, rubber bands, chalk, tape, etc.

We have our own R & D centre where our versatile team made up of designers, engineers and sales and marketing staff conceptualizes new products and strives for optimization of existing products and processes. They work across various mediums like plastic, metals, paper, canvas, tape, packaging and rubber to name a few. Additionally we have a world class tool room for the production of dies and moulds which enables us to design and develop products in-house, quickly in response to market and industry demands and trends. One of the services we provide is special OEM orders from start to finish, including designing the product, manufacturing the die and production of final product, including printing and packaging.

OMEGA is well equipped to meet the needs of increasingly discerning consumers with a continuous flow of new, innovative, sophisticated and quality products. The management team at Allied Instruments has consistently endeavored to stay up to date with technology and has optimized processes and quality by employing robotics, CNC machines, an emphasis on automation and state of the art tools and moulds, at all of our manufacturing facilities in India.
